

JULIE ANNE A. PESAÑA

Davao City, Philippines | pesanajulieanne@gmail.com | github.com/wejie2005

Highly motivated Computer Science student seeking an On-the-Job Training (OJT) position in Software Engineering, with a strong interest in database management and data analytics. Eager to apply academic training in programming, backend logic, and data infrastructure to real-world projects while rapidly mastering new frameworks and contributing to the engineering team.

AREA OF EXPERTISE

- **Programming Languages:** Python, Java, JavaScript, TypeScript, PHP, C++, HTML/CSS
- **Frameworks & Libraries:** React.js, React Native, Laravel, Streamlit, Gradio, Bootstrap, Tailwind CSS
- **Data Analytics & Databases:** SQL, MySQL, PostgreSQL, Google BigQuery, Excel
- **Software & Mobile Development:** Object-Oriented Programming (OOP), Backend Logic & APIs
- **Developer Tools & AI:** Visual Studio Code, Git/GitHub, Ollama, Hugging Face

SELECTED PROJECTS

Banana AI Disease Classification & Detection | Lead Developer **Oct 2025 - Dec 2025**

- **Tech Stack:** Python, Streamlit, Computer Vision, Data Metrics, Git
- Built a Streamlit web app that automates banana leaf disease classification and quantifies crop damage.
- Developed Python data logic to transform visual leaf features into structured datasets for risk analysis.

Derma Agent Triage | Lead Developer **Oct 2025 - Dec 2025**

- **Tech Stack:** Python, Hugging Face, Open-Source LLMs, NLP Data Modeling
- Built an AI triage system using Hugging Face and Ollama to categorize unstructured patient symptoms.
- Designed the data pipelines and conditional logic to ensure accurate, automated risk classification.

Brokenshire Hotel Management System | Database Developer **Mar 2026 - Apr 2026**

- **Tech Stack:** React, PHP/Laravel, SQL, MySQL, Excel, Git
- Co-developed a full-stack web platform and architected the MySQL schema for real-time room inventory.

EDUCATION

Bachelor of Science in Computer Science **Aug 2023 - Present**

University of Mindanao - Matina

Relevant Coursework: Object-Oriented Programming (OOP), Web Development, Software Engineering, Computer Vision & AI Fundamentals, Information Management (DBMS), Data Structures and Algorithms, Human-Computer Interaction, and Mobile Application Development.

ADDITIONAL INFORMATION

- **Languages:** English, Filipino
- **Certifications:** Information Technology Specialist in Databases, Information Technology Specialist in HTML and CSS, Google Data Analytics
- **Seminars:** Office Etiquette, Work Ethics, Gender & Sexual Harassment Assessment Awareness, AI in Business Analytics
